

Our Riding Stable

Riding is an art... The art lies in making both happy – human and horse. That's why we place great value on sensitive and individual communication with our equines and on personalized horse care. Our horses spend most of the day in the herd, out on the large pasture with their friends, to ensure they are balanced and joyful when interacting with riders. Please note that each of our horses has an individual weight limit: up to 85 kg for beginners and 90 kg for advanced riders. Our riding experts are looking forward to meeting you! For safety reasons, riding does not take place during rainstorms or thunderstorms – in light drizzle, we decide based on the situation.

PARENT-CHILD-COURSE (Our pedagogical riding concept) for children aged 3–7

A parent leads the horse and learns how to handle both the child and the horse safely, as well as the correct leading techniques. This course strengthens the parent-child bond, promotes respectful and animal-friendly interactions, and includes balance exercises, communication with the horse, guiding without reins, light seat – when and why, stopping and starting the horse, horse care & feeding. At this age, the most important thing is that the children have fun riding – without the pressure of having to control a 500 kg horse. We learn many skills that later allow a confident and fearless start into riding lessons with reins – we recommend this course for children under 6 years, and also for kids under 8.

RIDING LESSONS for children and adults from 6/7 years

Children and adults can learn riding from the ground up or improve their riding skills with certified instructors. We recommend taking a weekly course to achieve sustainable progress – compared to single lessons, group lessons teach essential skills such as keeping distance from other horses, riding away from the group, stopping, and more – and it's more fun in a group. ½ hour private lessons can be booked additionally if available. Beginners from 6 years old start with a half-hour lesson, as there is much to learn and it can be quite exhausting for both horse and rider. Riders with previous experience (at least able to ride at walk with reins independently) may join the half-hour or full-hour lesson.

GUIDED TRAIL RIDES

Advanced riders (who can independently ride all gaits in open terrain) can join our guided trail rides. Our highlight: we ride to one of the 7 most beautiful viewpoints in South Tyrol.

MUST HAVE for riding

Long pants, sturdy shoes, and a helmet (bike helmets are also acceptable). If you don't have a helmet, we'll lend you one for free. You're welcome to bring any additional riding gear such as breeches, vests, etc. if available – but it's not required. A little tip: beginners should avoid high riding boots (the stiff plastic often restricts ankle movement); instead, choose ankle boots, riding shoes, or sturdy shoes.
